

My biggest complaint is the local news in the Hartford CT area. I can get 5:00 to 7:00 a.m. news on one channel that is good, but not much else that is complete. Sometimes the captions do not match the words being said and are not scrolled correctly or are incomplete on other channels. Emergency info is not broadcast many times on severe weather, etc. H&G channel does not always have captions or has not captioned old programming. CNN does not caption early morn or evening after 10:00. Please pursue more news coverage in our area. Live news is not captioned.
